LINKEDIN | **PORTFOLIO**

PROFESSIONAL SUMMARY

I'm a Mobile Application Developer with 4+ years of hands-on experience building real-world mobile apps using Flutter and React Native. I enjoy turning complex requirements into clean, fast, and reliable applications. I've worked across the full app lifecycle — from development and API integration to deployment on the Google Play Store and Apple App Store. I care deeply about performance, clean architecture, and delivering products that users enjoy using.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Dart
Mobile: React Native, Flutter
State Management: Redux Toolkit, Redux, Context API, Zustand, Bloc, Cubit, Riverpod
UI & Styling: NativeWind
Backend & APIs: Firebase, REST APIs, Supabase
Tools & Deployment: Git, GitHub, Postman, VS Code, Android Studio, Xcode, Google Play Console, App Store Connect, OneSignal, Fastlane, Shorebird, CodePush

WORK EXPERIENCE

Mobile Developer, Acelucid Technologies Pvt. Ltd. - *Dehradun, Uttarakhand* **Nov 2022 – Jan 2026**

- Building and maintaining production-level Flutter and React Native apps used by real users.
- Improved overall app performance by around 30% by optimizing image loading, state management, and UI rendering.
- Implemented deep linking and smooth navigation flows to enhance user experience.
- Integrated Stripe and Razorpay for secure and seamless in-app payments.
- Worked extensively with Firebase for authentication, push notifications, and real-time features.
- Managed CI/CD pipelines, app signing, and store submissions for both Android and iOS.
- Introduced SonarQube for better code quality and long-term maintainability.
- Collaborated closely with designers, backend developers, and QA to ship stable releases.

React Native Developer, CFCS Cloud Solutions - *Noida, India* **Feb 2022 – Oct 2022**

- Developed mobile applications using React Native and TypeScript.
- Used Redux Toolkit for predictable and scalable state management.
- Integrated REST APIs and handled authentication flows securely.
- Implemented Firebase push notifications for real-time user engagement.
- Successfully published apps to the Play Store and App Store.
- Focused on improving UI performance and reducing unnecessary re-renders.

PROJECTS

Mind Mentor (SaaS EdTech Platform) **Aug 2025 – Jan 2026**

- SaaS-based **AI-powered EdTech platform** for colleges and universities.
- Enables personalized study plans, smart content assistance, and academic performance tracking.
- Improved student engagement and centralized academic resource management.
- Built an AI-driven interview and assessment module that simulates real interview experiences for

students using conversational AI.

Skills Used: Flutter, Bloc, Hive, Firebase, One Signal, Third Party Libraries, Google Auth, GCD, AI/LLM APIs

Recipe Cup – Food Ordering Platform **June 2025 – Dec 2026**

- Developed two production-grade mobile applications (Customer App & Vendor App) using React Native with clean modular architecture.
- Implemented scalable state management using Redux Toolkit to handle cart logic, order lifecycle, authentication, payments, and real-time order status.
- Used Context API for theme handling, user session, and lightweight shared state.
- Designed highly responsive UI using NativeWind (Tailwind for React Native) ensuring consistent design across Android & iOS.

Skills Used: React Native, Redux Toolkit, Context API, NativeWind, Firebase, OneSignal, REST APIs, Performance Optimization

Nutmeg Buyer **Sept 2024 – Aug 2025**

- **B2B mobile application** enables retailers to purchase groceries in bulk from suppliers.
- Implemented inventory management, order tracking, and secure payments.

Skills Used: Flutter, Bloc, Firebase, One Signal, Third Party Libraries, Stripe

Sygnal **Jan 2024 – Aug 2024**

- Healthcare platform aligned with **NDIS and Aged Care compliance standards**.
- Features include client management, care plans, staff rostering, and workflow automation.

Skills Used: Flutter, Bloc, Firebase, One Signal, Third Party Libraries, Google Map

Fuji CSMS **May 2022 – Oct 2022**

- Mobile CSMS application for service request tracking and engineer task management.
- Enable real-time updates and request lifecycle tracking.

Skills Used: React Native, React Redux, Firebase Push Notifications, TypeScript, React Navigation, React Hooks, Third Party Libraries

---

EDUCATION

B. Tech (CSE), Shivalik College of Engineering (UTU) - Dehradun, Uttarakhand **2018 – 2022**
